

A scenic mountain landscape with a wooden fence and a basket of flowers in the foreground. The background features rugged, rocky mountains under a blue sky with light clouds. The foreground is filled with lush green grass and wildflowers. A woven basket, tied to a wooden fence, contains a bouquet of fresh flowers, including white daisies and purple blossoms. The word 'Clarins' is written in red cursive on the side of the basket.

5 Reasons to Trust Clarins

- N°1 Plants and Science**
We believe in natural ingredients over chemical ones, using over 250 natural plant extracts – all carefully selected for their effectiveness.
- N°2 Spa Expertise**
From our first Beauty Institute in Paris in 1954, every Clarins Skin Spa experience has continued to incorporate expert manual techniques to boost the effectiveness of its formulas.
- N°3 Permanent Innovation**
With our constant innovation to meet the beauty needs of women, and continuous perfecting of our timeless best-sellers, Clarins believes in delivering proven, real-world results.
- N°4 Customised Consultations**
Whatever your skin type or beauty concern, Clarins will design a customised treatment routine specially for you.
- N°5 The Clarins Commitment: Making Life More Beautiful**
Clarins is committed to respecting nature and protecting biodiversity. We support local communities and purchase our raw materials in accordance with fair trade principles.

Plants. Our Science.

Decipher, extract, innovate. Clarins puts plants and science at the heart of every innovation.

Plants have unique powers of self-regulation, self-repair, survival and renewal – properties which have direct benefits for our skin. It is these powers that ethnobotanists at Clarins Laboratories continuously strive to discover and decipher in order to understand their actions, benefits and beauty secrets.

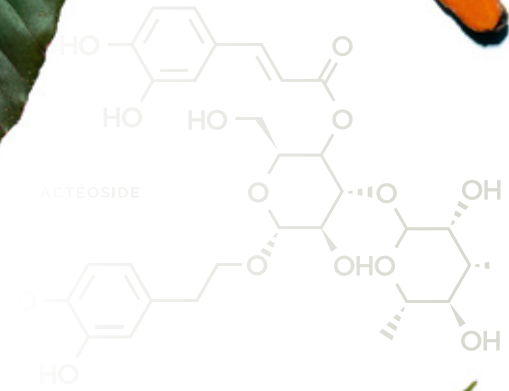

Ginger Lily
Stimulates collagen production

Huang Qi
Antimicrobial & protective properties

Turmeric
Powerful anti-oxidant

Macadamia
Regenerating & moisturising properties

Beautyberry
Promotes radiance
